Description :

PDF-bd545 | Step into the color zone...where cool effects are the rule and nothing is what it first appears to be. Colors can always fool you—making objects seem larger, smaller, faster, or even better looking than they really are. And, when they interact with a range of very special forms and shapes, the optical magic becomes more powerful still. Just try one out and see if you can tell what's going on.... *Colorful Illusions: Tricks to Fool Your Eyes*
