Description :

PDF-2efab | Used by over 200 million women since the 1960s, the Pill is one of the most commonly prescribed medicines--and has repeatedly been established as one of the least harmful ever formulated. However, there are some risks, and a number of "Pill Scares" have been reported in the media--often causing women to give up the Pill without finding a satisfactory alternative. More choices are now available th... *The Pill and other forms of hormonal contraception (The Facts Series)*
